PAIN SCORES

- 0 = No pain
- 1= Mild Discomfort
- 2= Moderate Discomfort
- 3= Painful
- 4=Severe Pain
- 5= Excruciating

The patient Total = Volume infused + bolus given.
Please check the pump strictly for bolus attempts, bolus given, and patient total. This is done by:

- Pressing the red stop/no button
- Press the blue info key to obtain the **HOURLY SCREEN. THIS IS NOT A RUNNING TOTAL/NOT CUMMULATIVE. Add each hourly total to get 4 hourly.**
- Press the stop/no button twice, then press the green start/ok button to resume the infusion
- VTBI (remaining volume) is checked by just pressing the info key twice from the main screen
- At the same time each day complete a 24 hour patient total by following step 4. And complete the following page.

INTRATHECAL PUMP DELIVERY RECORD C000751

24 HOUR PATIENT TOTAL SUMMARY (At the same time each day)

This is a cumulative total therefore you will need to subtract the previous 24 hour total

Date	Time	Patient Total	Date	Time	Patient Total
